Single NextGen Database

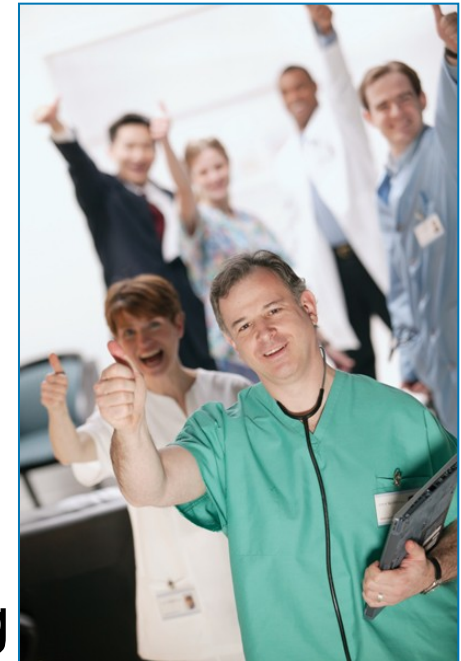

- CCHIT Certified
- Point of Care Documentation
- Clinical Messaging / Workflow
- Prescription Management & E-Prescribing
- Document & Image Management
- Patient Education Materials (4,000+)
- E & M Coding Support
- EDI engine for Labs, PMS & Hospitals
- Supports Health Quality Measures i.e. PQRI, NCQA, BTE
- Referral and Recall Letters
- Outcomes Analysis and Report Generation
- **Most Powerful and Flexible Product in the Industry**

- Integrated with NextGen EMR
- Background Business Processor
- WorkLog Manager
- Enterprise-wide Patient Registration
- Enterprise Master Patient Index
- Financial Management, Billing
- Electronic Referrals, Authorizations
- Enterprise Appointment Scheduling
- Powerful Reporting Capabilities
- Scalability: Small to Large practice
- Internet Connectivity

- Workflow **integrated** with NextGen EMR/EPM; Automated Tasking
- Supports Documents & Clinical Images
- Automates Secondary Billing
- Post Payments from Scanned EOBs
- Bar Code Scanning Functionality
- ISIS and TWAIN Compatible
- Support for High Volume Batch Scanning
- Enables groups to incrementally roll out clinical product suite

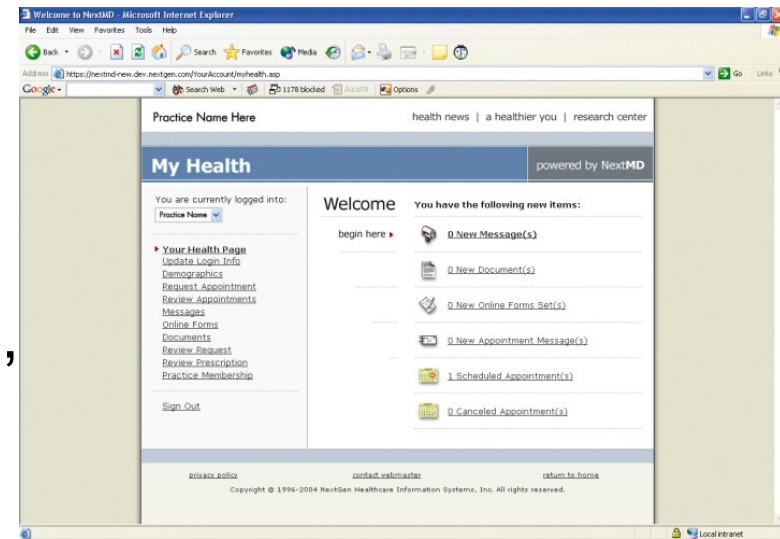

#1 Specialty EMR

Exclusive clinical content for many specialties

The screenshot displays the NextGen EMR interface with several open windows:

- NextGen EMR: Chester Payne [CathResult]**: Shows a calendar for selecting a date, a grid for patient status (Coronaries, Stenosis, etc.), and a circular diagram for anatomical mapping (Anterior, Inferior, etc.).
- NextGen: Demo Cataract - [09/02/2003 01:00]**: Displays a large image of a cataract.
- NextGen: Anderson Anna - [10/18/2004 01:00]**: Shows a list of medical history items (Allergies, Immunizations, etc.) and a section for "Description for Procedure" with checkboxes for various tests.
- NextGen: Joe M Fox - [10/18/2004 04:56 PM] "Asp Knee"**: The main window for a knee aspiration/injection procedure. It includes:
 - Home** and **Demographics** tabs.
 - Physical Exam** and **Review of Systems** sections.
 - Procedures** list: Knee Exam, Arthroscope Knee.
 - Lab Orders** section.
 - RO Fractures** section.
 - Injection Site** diagram with a "Start" button and a "Clear All" button.
 - Procedure Steps**: 1. Therapeutic Injection, 2. Needle Gauge, 3. Meds Injected, 4. Aspirant Appearance, 5. Improvement / Relief, 6. Patient Instructions, 7. Specimen to Lab.
 - Aspirant CC(s)** section with a grid for recording values.
 - Improvement** section with a grid for recording values.
 - Side** dropdown menu (left, right).
 - Add Diagnosis** dropdown menu (closed fracture lower end femur).
 - Add | Clear** button.
 - Injection Site** pop-up window listing various anatomical sites (left knee, lateral joint line, etc.).

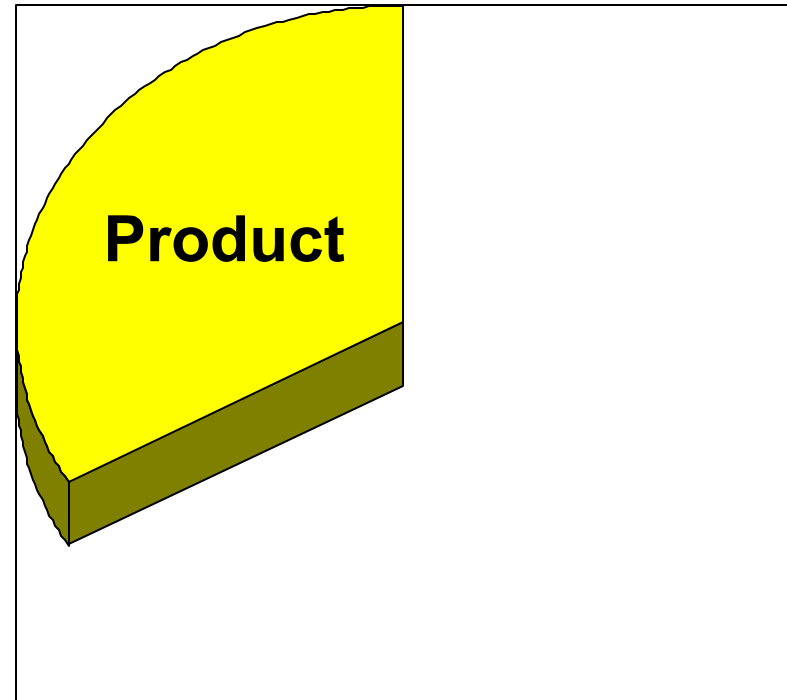

- Secure Internet Patient Portal
- Engage Patients in their Care
- Increase Patient Satisfaction
- Save time with Prescription Renewals, Appointment Scheduling, and e-visits
- More time = Increased Practice Revenue
- Enhanced communication with your patients

Selecting an EMR Vendor

Product

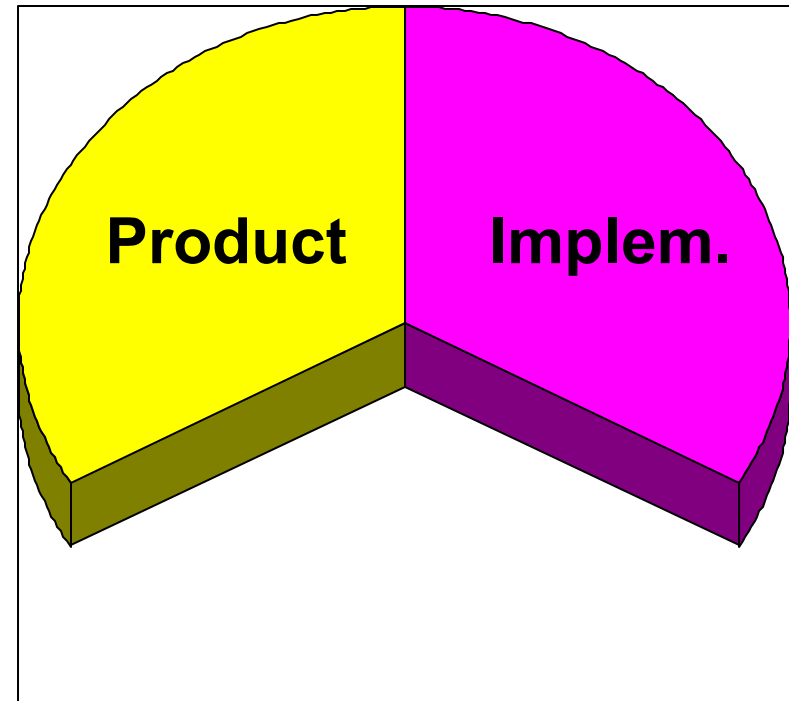

- 1) How good is the product?
- 2) What is the architecture?
- 3) Are they interoperable?
- 4) What is their install base?
- 5) Are their clients happy?
- 6) Have they won any awards?

Selecting an EMR Vendor

Training/Implementation

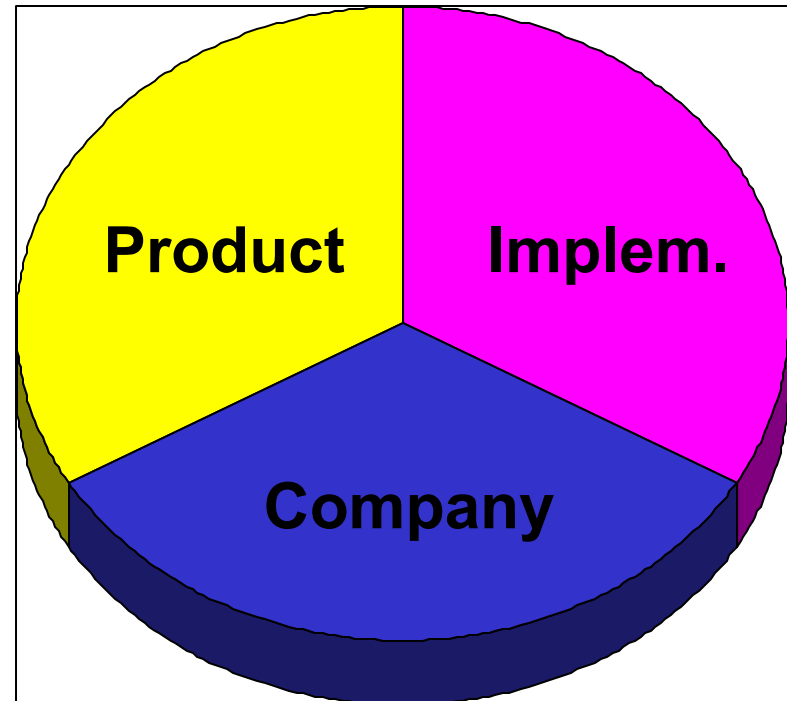

- 1) Do they know how to implement?
- 2) Do they have experience with group like ours?
- 3) What are our rollout and training options?
- 4) Have they received any recognition?

Selecting an EMR Vendor

Company

- 1) Are they a well managed company?
- 2) Are they profitable?
- 3) Are they growing in the marketplace?
- 4) Will they have the longevity to support us?
- 5) How is their customer support?

Elite Customer Service

Implementation and Training

- Written project plan developed for each customer
- Project Manager assigned to each customer
- Training on-site or via Internet
- Nationwide training centers

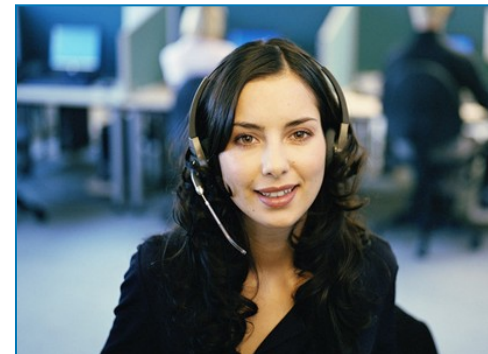

Elite Customer Service

Ongoing Service Provisions

- Software enhancements included
(1 major update per year and 2-3 smaller updates)
- Telephone support available 24/7/365

Automated Support Systems

- Issues logged by phone or Internet
- 2 hour response time, all calls surveyed for satisfaction

Annual Users' Meeting

- Great annual resort location
- Intensive product training – course paths for levels: 100, 200
- Networking ever specialty, geographic practice size, etc...
- Annual keynote speaker
- Optional “fun” client events

Why NextGen?

- Fully integrated EMR, Practice Management, Scanning
- Stable Leadership
 - All founders still active management
- Superior Customer Support
- CCHIT 2007 Certified
 - Currently testing for CCHIT 2008 certification
- Strongest functionality in market
 - Drives powerful return on investment
- P4P Ready
 - Automated PQRI
 - P4P reports included out of the box
